This report is prepared based on the Internal quality reports provided by the coordinators and members of Quality Assurance and Monitoring Board (QAMB) only from two project partners UNI and UNS. Action plan with many activities that would be realised during this period was made, but circumstances that no one could have planned happened and interrupted the implementation of the project before the visit to the university in Ghent, in order to prepare materials for pedagogical, psychological and methodological training courses.

All consortium members from partner institutions pearticipated in the LCT meeting in Novi Sad, where the action plan for the realization of upcoming trainings and activities has been accepted.

Comparative analysis has been done by the University of Gjirokaster and UNI and, thanks to the findings of this report, all partners participated in the realization of the action plan.

On the LCT meeting, the content of the technical interim report has been looked over and the way to validate delays of some activities was invented. Interim report was written by the main coordinator and was sent to Brussels for a review on time.
