WP2 – Tasks

Lead Organisation – P4 University of Kragujevac

2.1 Forming technology-enhanced learning spaces

2.2 Preparing material for PM training courses

2.3 Creating material for providing language support for teaching staff

2.4 Preparing guidelines for the technological enhancement of teaching and learning

2.1 Forming technology-enhanced learning spaces

✓ The provisory equipment specification given in the project application as the need of the PC universities, was revised by two constituted work groups (Serbian and Albanian). A work group for each partner country was consisted of IT experts from that country. The work of these groups started simultaneously with comparative analysis and identification of needs in WP1.

✓ The final decision about the purchase of equipment was made at the second LCT meeting and then separate tender procedures for the Serbian and Albanian partner institutions has been carried out.

Introduction part of the Report should have some aditional information about tander procedures in Serbia and Albania.

2.1 Forming technology-enhanced learning spaces

✓ **After the completion of tender procedures, partner universities organized installation of video conference rooms (VCR) and a trial of their functioning.** These VCR was useful for exchanging experiences in the real time, for organising on-line meetings, collaborations and workshops.

2.1 Forming technology-enhanced learning spaces

✓ Equipment for modernisation of classrooms and laboratories at the PC HEIs was purchased.

2.1 Forming technology-enhanced learning spaces

✓ Technology-enhanced learning spaces enable the use of innovative teaching and learning methodologies during and after the project life.
